2014-09-08 / 1.0.0

- Initial release

2.0.0 / 2021-12-17

- Drop support for Node.js 0.6
- Remove `I'mateapot` export; use `ImATeapot` instead
- Remove support for status being non-first argument
- Rename `UnorderedCollection` constructor to `TooEarly`
- deps: depd@2.0.0
- Replace internal `eval` usage with `Function` constructor
- Use instance methods on `process` to check for listeners
- deps: statuses@2.0.1
- Fix messaging casing of `418 I'm a Teapot`
- Remove code 306
- Rename `425 Unordered Collection` to standard `425 Too Early`

2021-11-14 / 1.8.1

- deps: toidentifier@1.0.1

2014-09-08 / 1.0.1

- Fix accepting string message

2014-09-08 / 1.1.0

- Default status to 500
- Support provided `error` to extend

2020-06-29 / 1.8.0

- Add `isHttpError` export to determine if value is an HTTP error
- deps: setprototypeof@1.2.0

2014-09-21 / 1.2.1

- Support Node.js 0.6
- Use `inherits` instead of `util`

2019-02-18 / 1.7.2

- deps: setprototypeof@1.1.1

2018-09-08 / 1.7.1

- Fix error creating objects in some environments

2014-09-21 / 1.2.2

- Fix publish error

2014-09-21 / 1.2.3

- deps: statuses@~1.1.0

2018-07-30 / 1.7.0

- Set constructor name when possible
- Use `toidentifier` module to make class names
- deps: statuses@'>= 1.5.0 < 2'

2018-03-29 / 1.6.3

- deps: depd@~1.1.2
- perf: remove argument reassignment
- deps: setprototypeof@1.1.0
- deps: statuses@'>= 1.4.0 < 2'

2014-09-21 / 1.2.4

- Fix dependency version to work with old npms

2014-09-28 / 1.2.5

- deps: statuses@1

2017-08-04 / 1.6.2

- deps: depd@1.1.1
- ◦ Remove unnecessary `Buffer` loading

2017-02-20 / 1.6.1

* deps: setprototypeof@1.0.3
  * Fix shim for old browsers

2014-10-02 / 1.2.6

* Fix expose to be true for ClientError constructor

2014-10-14 / 1.2.7

- Remove duplicate line

2017-02-14 / 1.6.0

- Accept custom 4xx and 5xx status codes in factory
- Add deprecation message to `"I'mateapot"` export
- Deprecate passing status code as anything except first argument in factory
- Deprecate using non-error status codes
- Make `message` property enumerable for `HttpErrors`

2016-11-16 / 1.5.1

- deps: inherits@2.0.3
  - Fix issue loading in browser
- deps: setprototypeof@1.0.2
- deps: statuses@'>= 1.3.1 < 2'

2014-12-09 / 1.2.8

- Fix stack trace from exported function
- Remove `arguments.callee` usage

2015-02-01 / 1.3.0

- Construct errors using defined constructors from `createError`
- Fix error names that are not identifiers
  ◦ `createError["I'mateapot"]` is now `createError.ImATeapot`
- Set a meaningful `name` property on constructed errors

2016-05-18 / 1.5.0

- Support new code `421 Misdirected Request`
- Use `setprototypeof` module to replace `__proto__` setting
- deps: statuses@'>= 1.3.0 < 2'
  ◦ Add `421 Misdirected Request`
  ◦ perf: enable strict mode
- perf: enable strict mode

2016-01-28 / 1.4.0

- Add HttpError export, for err instanceof createError.HttpError
- deps: inherits@2.0.1
- deps: statuses@'>= 1.2.1 < 2'
  - Fix message for status 451
  - Remove incorrect nginx status code

2015-02-02 / 1.3.1

- Fix regression where status can be overwritten in createError props
