

Welcome to the Mau Mau Tutorial When the game starts, it's our turn So let me show you This card will fit this card Because Confiant to play as diamonds, Queen Now we have to match the card We don't have any diamonds We don't have any Queen But we have this guy So if we play this guy We can play him on any card The Jack And then it's our turn To choose what we want the computer to play Let me show you Now for us it's convenient To play to choose this deck Because Play this card Computer Has to wait And it's our turn again to play with an eye So that's what we're gonna do Choose this As our desired card King of Spades I'll make him pulse It's our turn again We're gonna play this card If this is my last card I have to say Mau Mau If I play against the human Because if I don't Then I have to draw another card Because I forgot to say Mau Mau So now the computer drew a card And I cannot play Because it doesn't match He draws another card Because he doesn't have anything That matches this card Now we have a 9 That fits perfectly It's not the same color But it's the same value So we can play that Now he plays diamonds King We have that too Mau Mau Mau Mau I can't play I have to draw a card I have to draw a card I have to draw a card Here we go We got hearts Mau Mau Now I can play this But then I cannot counter So I have to draw a card Play it anyway That was quick because He couldn't draw any of them Remains to be Can't play Can't play No Can't And I can't here The Gamcat here And I can't here The Gamcat here He wants heart Mau Mau And I can't here The Gamcat here He wants heart And I can't and I can finish see the five and the five perfect you haven't seen any sevens yet so let's play another quick round since we know the rule make him pause,

put a new ten he wants diamonds which we owe which we don't have let's say if I can counter his desire with my desire I can't and because he's one I wasn't paying attention here let's play another big one okay it's early in the morning please forgive me it's pretty fast Snoopy got shitload of sevens so I can explain them okay if he doesn't have a seven to counter me he has to draw two cards if he does counter with the seven it's my turn again but I have another one so I can stack the sevens up let's see what happens he doesn't have shit Mau Mau dear I won't again because I'm the champion it's not that easy give it a try I think I explained all the rules the rules
