

8.3.4 (2024-09-09) Bug fixes Walk SwitchCase nodes as separate nodes. 8.3.3 (2024-01-11) Bug fixes Make acorn a dependency because acorn-walk uses the types from that package. 1	8.3.2 (2024-01-11) Bug fixes Add missing type for findNodeBefore. 8.3.1 (2023-12-06) Bug fixes Add Function and Class to the AggregateType type, so that they can be used in walkers without raising a type error. 2	Visitor functions are now called in such a way that their this refers to the object they are part of. 8.3.0 (2023-10-26) New features Use a set of new, much more precise, TypeScript types. 3	8.2.0 (2021-09-06) New features Add support for walking ES2022 class static blocks. 8.1.1 (2021-06-29) Bug fixes Include base in the type declarations. 4
8 New features Add a TypeScript definition file for the library. 7.1.0 (2020-02-11) Clean up the type definitions to actually work well with the main parser. Bug fixes 7.1.1 (2020-02-13)	7 New features Support optional chaining and nullish coalescing. Support import.meta. Add support for export * as ns from "source". 7.2.0 (2020-06-17)	6 New features The package can now be loaded directly as an ECMAScript module in node 13+. 8.0.0 (2020-08-12) Fix a bug where full and fullAncestor would skip nodes with overridden types. Bug fixes 8.0.0 (2021-01-05)	5 Bug fixes Adjust package.json to work with Node 12.16.0 and 13.0-13.6. 8.0.2 (2021-01-25) Support node types for class fields and private methods. New features 8.1.0 (2021-04-24)
7.0.0 (2017-08-12) New features Support walking ImportExpression nodes. 6.2.0 (2017-07-04) New features Add support for Import nodes. 9	6.1.0 (2018-09-28) New features The walker now walks TemplateElement nodes. 6.0.1 (2018-09-14) Bug fixes Fix bad "main" field in package.json. 10	6.0.0 (2018-09-14) Breaking changes This is now a separate package, acorn-walk, rather than part of the main acorn package. The ScopeBody and ScopeExpression meta-node-types are no longer supported. 11	5.7.1 (2018-06-15) Bug fixes Make sure the walker and bin files are rebuilt on release (the previous release didn't get the up-to-date versions). 12
16 Bug fixes Support object spread in the AST walker. 5.5.0 (2018-02-27) Fix regression in walker causing property values in object patterns to be walked as expressions. Bug fixes 5.5.1 (2018-03-06)	15 Bug fixes Fix a bug in the walker that caused a crash when walking an object pattern spread. 5.6.0 (2018-05-31) Fix regression when passing null as fourth argument to walk.recursive. Bug fixes 5.6.1 (2018-06-01)	14 Bug fixes In the walker, go back to allowing the baseVisitor argument to be null to default to the default base everywhere. 5.6.2 (2018-06-05)	13 Bug fixes Fix crash in walker when walking a binding-less catch node. 5.7.0 (2018-06-15)

5.4.1 (2018-02-02) Bug fixes 5.4.0 somehow accidentally included an old version of walk.js. 5.2.0 (2017-10-30) Bug fixes The full and fullAncestor walkers no longer visit nodes multiple times. 17	5.1.0 (2017-07-05) New features New walker functions full and fullAncestor. 3.2.0 (2016-06-07) New features Make it possible to use visit.ancestor with a walk state. 18	3.1.0 (2016-04-18) New features The walker now allows defining handlers for CatchClause nodes. 2.5.2 (2015-10-27) Fixes Fix bug where the walker walked an exported let statement as an expression. 19	20
24	23	22	21
25	26	27	28
32	31	30	29
