

Release history All notable changes to this project will be documented in this file. The format is based on Keep a Changelog and this project adheres to Semantic Versioning. Guiding Principles - Changelogs are for humans, not machines. - There should be an entry for every single version.	- The same types of changes should be grouped. - Versions and sections should be linkable. - The latest version comes first. - The release date of each versions is displayed. - Mention whether you follow Semantic Versioning. Types of changes Changelog entries are classified using the following labels (<i>from keep-a-changelog</i>): - Added for new features.	- Changed for changes in existing functionality. - Deprecated for soon-to-be removed features. - Removed for now removed features. - Fixed for any bug fixes. - Security in case of vulnerabilities.	2.3.1 (2022-01-02) Fixed Fixes bug when a pattern containing an expression after the closing parenthesis (<code>/(!(*.d).{ts,tsx})</code>) was incorrectly converted to regex (9f241ef).
1 8 - add benchmarks for scan (4793b92) - add eslint object-curly-spacing rule (707c650) - add prefer-const eslint rule (5c7501c) 2.1.0 (2019-10-31) object returned by <code>picomatch.scan()</code>. - add tokens, slashes, and parts to the method (5b8d33f) - Disable fastpaths mode for the parse 2.2.0 (2020-01-04)	7 - Fixes #49, so that braces with no sets or ranges are now properly treated as literals. 2.2.1 (2020-01-04) - Correctly handle parts of the pattern after parentheses in the scan method (e15b920). Fixed 2.2.2 (2020-03-21)	9 - Do not skip pattern separator for square brackets (fb08a30). - Set <code>negatedExtglob</code> also if it does not span the whole pattern (032e3f5). Fixed 2.2.3 (2021-04-10)	5 - Fixes bug where file names with two dots were not being matched consistently with negation extglobs containing a star (56083ef) Fixed 2.3.0 (2021-05-21) - Some documentation improvements (f81d236, 421e0e7). Changed
- Add support for <code>nonegate</code> in scan API (275c9b9) - Change lets to consts. Move root import up. (4840625) - closes https://github.com/micromatch/picomatch/issues/21 (766bcb0) - Fix "Extglobs" table in readme (eb19da8) - fixes https://github.com/micromatch/picomatch/issues/20 (9caca07) - fixes https://github.com/micromatch/picomatch/issues/26 (fa58f45) - Lint test (d433a34) 9	- lint unit tests (0159b55) - Make scan work with <code>noext</code> (6c02e03) - minor linting (c2a2b87) - minor parser improvements (197671d) - remove eslint since it... (07876fa) - remove funding file (8ebe96d) - Remove unused funks (cbc6d54) - Run eslint during pretest, fix existing eslint findings (0682367) - support <code>noparen</code> in scan (3d37569) - update changelog (7b34e77) - update travis (777f038) 10	- Use <code>eslint-disable-next-line</code> instead of <code>eslint-disable</code> (4e7c1fd) 2.0.7 (2019-05-14) 2.0.7 (9eb9a71) - supports lookbehinds (1f63f7e) - update <code>.verb.md</code> file with typo change (2741279) - fix: typo in README (0753e44) 11	2.0.4 (2019-04-10) Fixed - Readme link fixed by @danez. <code>options.capture</code> now works as expected when fastpaths are enabled. See https://github.com/micromatch/picomatch/pull/12/commits/26aefd71f1cfaf95c37f1c1fcab68a693b037304. Thanks to @DrPizza. 12
16	15	14 First release. 1.0.0 (2018-11-05) - caching and all related options and methods have been removed 1.0.0 (2018-11-05) - adds <code>.onMatch</code> option - improvements to <code>.scan</code> method - numerous improvements and optimizations for matching and parsing - better windows path handling 0.1.0 - 2017-04-13	13 - Adds support for <code>options.onIgnore</code>. See the readme for details - Adds support for <code>options.onResult</code>. See the readme for details Breaking changes - The <code>unixify</code> option was renamed to <code>windows</code> Added 2.0.0 (2019-04-10)
