<pre>console.log(fill('a', 'z', 7)); //=> ['a', 'h', 'o', 'v'] console.log(fill('a', 'z', 9)); //=> ['a', 'j', 's']</pre> options.strictRanges Type: boolean Default: false Description: By default, null is returned when an invalid range is passed. Enable this 17	option to throw a RangeError on invalid ranges. Example(s) The following are all invalid: <pre>fill('1.1', '2'); // decimals not supported in ranges fill('a', '2'); // incompatible range values fill(1, 10, 'foo'); // invalid "step" argument</pre> 18	options.stringify Type: boolean Default: undefined Description: Cast all returned values to strings. By default, integers are returned as numbers. Example(s) 19	<pre>console.log(fill(1, 5)); //=> [1, 2, 3, 4, 5] console.log(fill(1, 5, { stringify: true })); //=> ['1', '2', '3', '4', '5']</pre> options.toRegex Type: boolean Default: undefined 20														
24 Contributing Pull requests and stars are always welcome. For bugs and feature requests, please create an issue. About <pre>// add zero padding console.log(fill(1, 5, value => String(value).padStart(4, '0'))); //=> ['0001', '0002', '0003', '0004', '0005']</pre>	23 options.transform Type: function Default: undefined Description: Customise each value in the returned array (or stringify). (You can also pass this function as the last argument to fill()). Example(s)	22 <pre>console.log(fill('1', '100', { toRegex: true })); //=> ['1-9'] ['1-9'] 100 // numerical range with zero padding console.log(fill('000001', '1000000', { toRegex: true })); //=> ['0{5} 1-9 0{4} 1-9 0{3} {3} 0{1-9} 0-9]{4} 1000000'</pre>	21 Example(s) Description: Create a regex-compatible source string, instead of expanding values to an array. <pre>// alphabetical range console.log(fill('a', 'e', { toRegex: true })); //=> ['a-e'] // alphabetical with step console.log(fill('a', 'z', 3, { toRegex: true })); //=> 'a d g j m p s v y' // numerical range</pre>														
Running Tests Running and reviewing unit tests is a great way to get familiarized with a library and its API. You can install dependencies and run tests with the following command: <pre>\$ npm install && npm test</pre> Building docs (This project's readme.md is generated by verb, please don't edit the readme directly. Any changes to the readme must be made in the .verb.md readme template.) 25	To generate the readme, run the following command: <pre>\$ npm install -g verbose/verb#dev verb-generate-readme && verb</pre> Contributors <table><tr><th>Commits</th><th>Contributor</th></tr><tr><td>116</td><td>jonschlinkert</td></tr><tr><td>4</td><td>paulmillr</td></tr></table> 26	Commits	Contributor	116	jonschlinkert	4	paulmillr	Commits Contributor <table><tr><td>2</td><td>realityking</td></tr><tr><td>2</td><td>bluelovers</td></tr><tr><td>1</td><td>edorivai</td></tr><tr><td>1</td><td>wtgtybhertgeghgtwtg</td></tr></table> Author Jon Schlinkert GitHub Profile Twitter Profile 27	2	realityking	2	bluelovers	1	edorivai	1	wtgtybhertgeghgtwtg	LinkedIn Profile Please consider supporting me on Patreon, or start your own Patreon page!  28
