

Polyfill for Object.setPrototypeOf

A simple cross platform implementation to set the prototype of an instantiated object. Supports all modern browsers and at least back to IE8.

Usage:

```
$ npm install --save setprototypeof
```

```
var setPrototypeOf =  
    require('setprototypeof')
```

```
var obj = {}
```

4

```
setPrototypeOf(obj, {
  foo: function () {
    return 'bar'
  }
})
obj.foo() // bar
```

TypeScript is also supported:

```
import setPrototypeOf from
'setPrototypeOf'
```

TypeScript is also supported:

```
    }
    obj.foo() // bar
}
```

```
setPrototypeOf(obj, {
  foo: function () {
    return 'bar'
  }
})
```
