Wrap the returned value in parentheses when there is more than one regex condition. Useful when you're dynamically generating ranges.

```
console.log(toRegexRange('-10',  
    '10'));  
//=> -[1-9]|-?10|[0-9]  
  
console.log(toRegexRange('-10', '10',  
    { capture: true }));  
//=> (-[1-9]|-?10|[0-9])
```

## options.shorthand

**Type:** boolean  
**Default:** undefined  
Use the regex shorthand for [0-9]:

```
console.log(toRegexRange('0',  
    '999999'));  
//=> [0-9] | [1-9] [0-9] {1,5}
```

```
console.log(toRegexRange('0',
    '999999', { shorthand:
        true }));
//=> \d|[1-9]\d{1,5}
```

**options.relaxZeros**

**Type:** boolean  
**Default:** true  
This option relaxes matching for leading zeros when when ranges are zero-padded.

```
const source = toRegexRange('-0010',
    '0010');
const regex = new RegExp(`^${source}$`);
console.log(regex.test('-10')); //=>
    true
console.log(regex.test('-010')); //=>
    true
console.log(regex.test('-0010')); //=>
    true
console.log(regex.test('10')); //=>
    true
```

```

const source = toRegexRange('0010',
    '0010', { relaxZeros:
    false });
const regex = new RegExp(`\\${source}`);

```

| Range                                               | Result                                           | Compile time |
|-----------------------------------------------------|--------------------------------------------------|--------------|
| $\text{toRange} \times \text{Range}(0, 1)$<br>(100) | $[0, 2]$<br>$[1 - 9]$<br>$100 \setminus [0 - 9]$ | 109µs        |
| $\text{toRange} \times \text{Range}(0, 1)$<br>(555) | $[0, 2]$<br>$[1 - 9]$<br>$100 \setminus [0 - 9]$ | 519µs        |

| Examples | Compile time | Result                     | Range                            |
|----------|--------------|----------------------------|----------------------------------|
|          | 132µs        | $[-1-9] \setminus [-9]$    | $\text{toRegexRange}(-10, 10)$   |
|          | 50µs         | $[-2-9] \setminus [-10-9]$ | $\text{toRegexRange}(-100, -10)$ |
|          | 42µs         | $[-1-9] \setminus [-9]$    | $\text{toRegexRange}(-100, 100)$ |

```

console.log(regex.test('10')) // => false
console.log(regex.test('010')) // => false
