

unpipe			
1 8	2 7 MIT License Unpipes all destinations from a given stream. With stream 2+, this is equivalent to stream.unpipe(). When used with streams 1 style streams (typically Node.js 0.8 and below), this module attempts to undo the actions done in stream.pipe(dest).	3 6 <pre>var unpipe = require('unpipe')</pre> API <pre>\$ npm install unpipe</pre> Installation Unpipe a stream from all destinations.	4 5
